eCAMPAIGNS TECHNICAL READINESS

The Technical Readiness Information below will help ensure your organization is ready for your United Way campaign. Please share this information with your technical team to make sure there are no questions before the kickoff of your United Way Campaign.

BROWSERS

- Please make sure employees have access to an up-to-date web browser. Recommended browsers include:

Browser	Version
Google Chrome	*105+*
Mozilla Firefox	*121+*
Microsoft Edge	*105+*
Apple Safari	*15.4+*

- If you are unsure what browser you are using you may go to **whatsmybrowser.org** to view information about your current browser.

EMAIL

- Confirm your email server is configured to allow-list incoming email from the following addresses:
  donorhelp@liveunitedchicago.org
  ecampaigns@liveunitedchicago.org
- Confirm the following email domains and/or IP addresses are allow-listed:

  Domain is **mta-70-25-156.sparkpostmail.com** and IP is **156.70.25.156**
  Domain is **mta-70-25-157.sparkpostmail.com** and IP is **156.70.256.157**
  Domain is **smtp1.upicsolutions.net** and IP is **52.86.171.35**
  Domain is **smtp2.upicsolutions.net** and IP is **34.232.26.125**
  Domain is **smtp3.upicsolutions.net** and IP is **34.230.104.208**
  IP is **198.62.138.0/24**
  IP is **206.201.63.0/24**
- Does your company have restrictions on how many emails can be received from a specific mail server? **If so, please inform the United Way eCampaigns team.**

QUESTIONS? If there are any questions or concerns please contact the United Way eCampaigns team at **eCampaigns@LIVEUNITEDchicago.org**
